

Ann Welz writes beautiful description of VOILA Method

“What I love about your work is that you gently show people the door to ‘heaven/ spirit/God/the Realm’ - and invite/tell them how they can enter (and/or live it more fully). Even if some aren’t yet ready, it gives me such peace to know they have been explicitly invited.

You sing such a beautiful song Joel - I am so grateful for you.

Is there a way to treat the physical body, mind, & spirit in one modality? Yes. While other therapies, treatments, & modalities have pieces of helping clients to heal, there is truly no comparison to the treatment, protocol & wholeness of the VOILÁ Method. I’m forever grateful to Joel Crandall for being open to receiving & creating this stand alone treatment & teaching the world to give it lovingly to others to empower themselves. Voilá gives you your power back, and when you feel that for maybe the first time in your life, or in a long time, only tears of joy can externally express that. Anyone can learn this method, for everyone has the ability to create their power & healing from within. Don’t limit yourself to your external environment (people, place, things) controlling your true SELF. No one is perfect, and with each learning moment, I am living a life that fills my body, mind & spirit. Check out the voilá page to give yourself, clients, family, & friends the gift of their life. I am so honored to share a modality that creates & expands health & joy in all of my being.
